Levels of Medical Supervision	
Requires online medical direction before performing	1
Requires completion of training that meets or exceeds specified state-wide training content established by the EMS Bureau	2
Requires additional standards as defined by the EMSPC	3
Requires EMSPC protocol	4
Just In Time Training	5

(Individual scopes of practice, separated by license level, can be found in the Standards Manual)

~End Tidal CO2 Monitoring/ Capnometry must be included if the Supraglottic Airway is selected as an EMT 2,3 OM

* Adults Only

** May carry and administer only if already prescribed

* 64 Telemetric monitoring is for patients enrolled in out of hospital care programs and requires specialized telemetry equipment under direct medical supervision.
